1. **Inspecting the Vehicle:** You must inspect the truck upon pick-up. Report any damages or debris found upon your inspection. Contact **443-574-8320** to report any damages

found. Damages found after you return the truck will be charged accordingly. A \$50.00 clean-up fee will be charged, if debris is found in the truck after you return.

2. **Before Driving:** Adjust the left/right mirrors. Familiarize yourself with all vehicle instruments and how to operate the truck in inclement weather, how to control the cabin temperature, and all other controls.
3. **Parking/Backing:** Try to avoid backing up whenever possible, but if it is necessary, *please use a spotter to guide you*. It is difficult to judge the correct distance using only the mirrors. Remember to always set the parking brake when leaving the vehicle unattended.
4. **Watch Overhead Clearances:** Beware of low overheads such as gas stations, hotel canopies, bridges, toll booths and street signs. Please do not drive through restaurants, hotels, banks, canopies or other drive-throughs.
5. **Allow Greater Following Distances:** A loaded truck can take 9 times as long in time and distance to stop as compared to a passenger car. Please leave at least five/six vehicle lengths between you and the car in front of you. At approximately 14,000 lbs., a collision will result in considerable damage and/or injury!
6. **Secure All Cargo:** Make sure all materials in the truck are secured, to avoid shifting while driving.
7. **24 Hour Towing Service:** If the truck should breakdown, please contact Bill's Towing at 410-465-3980 and they will tow you to your destination.
8. **Drive Safely:** Please wear a seat belt at all times while operating the truck and always obey all traffic laws and regulations. Remember to drive a little slower than you would in a car and you should avoid passing. Use caution when changing lanes and entering/exiting highways.
9. **Diesel Fuel:** The moving truck runs on **diesel fuel only**.. The following is a list of gas stations that carry diesel fuel in the surrounding area. *NOTE: Severe damage will result from putting gasoline into the fuel tank.*
